

FREE, flexible, online CPD for trainee teachers

Our online courses will help you develop **subject knowledge**, improve your **teaching strategies** and support you with **reflective professional development**.

BOOK LEARN SUPPORT REFLECT

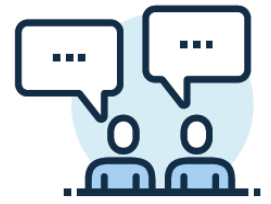

Free and easy access
to STEM specific CPD

Enjoy flexible learning and
connect with your peers

Dedicated mentoring from
a team of STEM experts

Share with colleagues and
develop your practice

Learn from experienced educators, build your confidence and support your students' understanding as you share ideas with other teachers.

- [Managing behaviour for learning](#)
- [Introducing assessment for learning](#)
- [Planning for learning in STEM teaching](#)
- [Teaching practical science](#)

“As an NQT I have found it challenging to encourage independent thinking and provide contextualisation. The Teaching Practical Science course has given me more ideas about these as well as increasing the range of practicals I am aware of.” - Participant feedback
