

Teacher Subject Specialism Training

Our Teacher Subject Specialism Training (TSST) programme provides free, high quality Professional Development, along with funding towards cover and travel costs.

The course is aimed at Secondary and FE teachers in numerate disciplines who are intending to teach some maths or are returning to teach maths and would like to refresh their subject knowledge.

It is also ideal for teachers who would like to improve their mathematical skills for the delivery of their subject ie. Teachers of Geography, Business Studies, PE. etc.

Free of charge
for state school
teachers

The aim of the programme is to:

- Enhance your mathematical knowledge to give you confidence to teach Maths
- Inspire your enthusiasm for Maths
- Provide you with motivating activities and tasks for teaching Maths
- Enhance your pedagogical skills in teaching Maths

The programme consists of:

- Eight face-to face twilight pedagogy workshops at the National STEM Learning Centre, York
- An e-learning and online assessment facility from the CIMT at Plymouth University
- Access to a 30 credit masters module 'Teaching and Learning Mathematics through Problem Solving'
- Mentor support during the programme; mentors will also conduct three lesson observations

For state school teachers this course is free of charge. On successful completion of the course, participants will be eligible for a bursary towards cover and travel costs.

The programme will begin on Tuesday 27 November at 3:00
