Major Tim’s Space Walk

On January 15th Tim Peake will carry out an Extravehicular activity (EVA) – Space Walk to repair a damaged part of the ISS.

Solving the Global Water Issue

Clean water is fast becoming the most important commodity on Earth. For over 1 billion people on our planet clean, safe water is very scarce. Can technology solve the crisis?

Flood Risk

December 2015 was the wettest December on record and the damage caused by floods across the UK has been devastating. Why does flooding seem to be getting more common? What can we do to reduce the flood risk?
