

Inspiring young people in STEM: Using feedback to improve

Personal Development Plan (PDP)

During your volunteering you may have identified a number of skills which you want to develop. The list has been entered below in the 'subject area' column to help you. However, you may be able to think of other personal development or career goals which you want to add. Ensure your objectives are SMART: specific, measurable, achievable, realistic and time bound. An example is shown in the first row.

Subject area	What do I want to achieve?	What are my SMART objectives to achieve this?	What feedback have I gathered?	Review and self-reflection
<i>Communication skills</i>	<i>I want to improve my use of open questions when delivering a STEM volunteering activity with young people.</i>	<i>I will devise and ask 3 open questions at the volunteering session on 30th April 2018 at Highgate School.</i>	<i>Educator mentioned that I had asked mostly closed questions at the last STEM session in March.</i>
