

## Year Five

### Science

How does the size and the materials affect the speed of the parachute?

Name of Team \_\_\_\_\_

How are you going to carry out this experiment?

How are you going to make it a fair test?

What is your prediction?

Results of your parachute design

Conclusions based on your parachute:

Conclusion based on the whole class findings:

If you were to design a parachute for the pilot of The Spirit of Innovation plane what would you do; based on your findings?
