# Welcome

**Build**  
THE Change

**Throw this slide up once the event kicks off. Use it to:**

1. Remind everyone what the topic of the course was
2. Talk through the what the children worked on
3. Share any reflections as an educator on the program and what the children learned

# Guest Intro

Build  
THE Change

Use this slide as a backdrop to introduce any special guests that have joined the class to hear about their ideas.

Welcome the guest up to share a few thoughts on how important children's voices are and the power of creativity to change the world.

The main event of the showcase is this section where children present their ideas for improving things in Grimsville.

It is completely up to you on how you approach this with your class.

In the past, we have given each group an opportunity to stand in front of their build and talk through their ideas.

Naturally, the end of this is reminding the children how much they have accomplished and how it is so important they feel that they can make a difference.

*Thanks so much for building the change with us!*

## HEY EDUCATORS Upload your kids' awesome ideas!

Don't forget to send photos and descriptions of your class' creations to our **A Future Without Waste** course gallery on LEGO.com!

Scan a QR code with a phone camera to get started.

**Session 2A**  
Design a school cafeteria that produces no waste of any kind.

**Session 2B**  
A space where people can bring in old things to turn into new things.

**Session 2C**  
Re-imagine something in a town or city so it can help regenerate nature.

**Session 3 (The Big Challenge)**  
Create something to make Grimsville better.

Don't forget to upload your kids' creations to our A Future Without Waste gallery on LEGO.com!

Note: you will need to be signed with your LEGOID username and password to upload.

Just scan the QR code above with a phone camera to get started.
