

A chimp

I can work with tools, learn words, share food and play with objects.

Robot vacuum cleaner

I move around a room avoiding objects. I keep going until a room is clean or I run out energy. I can find my base to recharge.

Pet rock

I am a stone with friendly features painted on.

Hangman

I am used to work out a given word using a process of letter elimination.

Facial recognition

I can identify or verify the identity of a person using their face. I capture, analyse and compare patterns based on the person's facial details.

Smart watch

I can recognise what activity you are doing, give you health data and monitor your sleep.

A parrot

I can imitate humans. I can navigate to home and for food and have social relationships with other parrots.

A human baby

I can't walk, talk or feed myself. But I will soon learn to do these things.

Chess-playing computer

I can play chess at the level of a chess master or higher. I can work out good moves and bad moves.

Homing pigeon

I can find my way home. I have been used for long-distance communication and can follow motorways and rivers.

Food processor

I can blend food to make soups or smoothies. I have different speed settings.

Autonomous vehicle

I am equipped with multiple sensors which help me understand my surroundings and in path planning. These sensors generate a massive amount of data which I learn from.
