

Txting

C U 6PM AT JS HSE

SEE YOU 6PM AT JAY'S HOUSE

Invent 5 text messages and write them down.

Now write them out again in longhand.

1. In total, how many letters or numbers did you save yourself keying in by writing the messages in text?
2. How many key presses did you save yourself?
3. On average, how many key presses did you save yourself per message?
4. In general, what percentage of total key presses do you save yourself by texting in shorthand?
