

you need:

- pens or pencils

# Mirror images for 2 players

Decide who is the Leader and who is the Follower.

**Leader**, join two dots in your box.

**Follower**, draw the reflection in your box.

**Leader**, join two more dots in your box.

**Follower**, draw the reflection again in your box.

Go on like this until you have both drawn 12 lines. Is the Follower's reflection accurate?

For the next game, swap roles.

**Sample game**

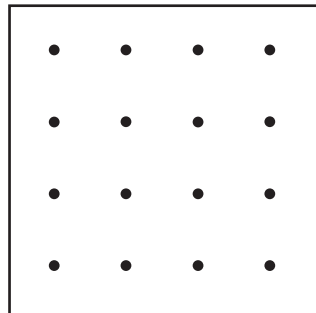

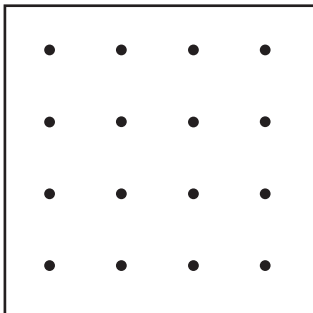

Leader                      Follower

The sample game shows two boxes. The left box, labeled 'Leader', contains a drawing of a stylized letter 'M' on a 4x4 dot grid. The right box, labeled 'Follower', contains a drawing of the reflection of the 'M' across a vertical line, also on a 4x4 dot grid.
