

Businesses ask graphic designers to create **logos** which they use on their products and advertisements.

This has  
1 line of  
symmetry.

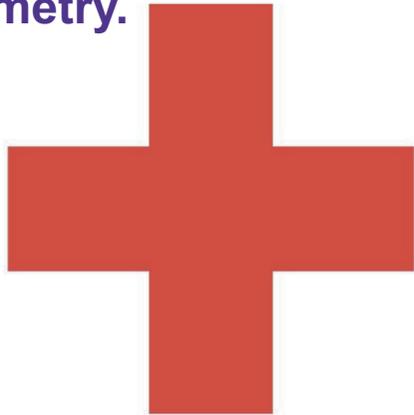

Hull  
City Council

Many commercial designs make use of symmetry for their overall shape, or for details within the design.

This has 4 lines of  
symmetry.

This has no  
lines of  
symmetry.  
It has rotational  
symmetry order 5.

Research using the internet to find logos which have different symmetries. In each case, print out or sketch the design and describe its symmetries.
