

PS4 - Chemistry ELG - 3 - 5

What is the main task of this puzzle?

Join the dots to find out who is waiting for his breakfast.

What are the other topics or tasks in the puzzle?

- The table isn't set yet because teddy is practising his juggling. What is he juggling? Which item is made of wood? Which is made of rubber? Which is made of metal and which is made of wool? What would happen if teddy dropped them - which one would break? Which items are hard and which are soft?
- If you look at the knives, forks and spoons you'll find two items which don't belong on a breakfast table - what are they?
A toothbrush and a hammer.
- What is wrong with the teapot? The spout is on upside down.
- How many circles does teddy have on his tummy? How many triangles?
- Colour in the puzzle

Puzzle 2

Can you draw some things for the teddy to juggle? Draw one, two or three items that teddy is juggling that are made of wood / metal / plastic.

Where does it fit in the curriculum?

Wales

Begin to appreciate the differences in and uses of a range of materials.

Make choices and select materials from a range, exploring their potential, cutting, folding, joining and comparing.

Scotland

Sort and categorise things into groups.

Understand some properties of materials, for example soft/hard, smooth/rough.

Northern Ireland

Understand that different materials behave in different ways, have different properties and can be used for different purposes.
