

How can employees stop hackers?

The story

- Emma is a trainer in a logistics company.
- She has been asked to research and write a report highlighting the information needed for a new training session to staff on the importance of keeping the company safe from cybercriminals.
- She must then write a report highlighting the content that needs to be included in the training session which will help employees understand:
 - why system security is important
 - their role in keeping the company's computer system safe

Your task

Write a report highlighting the information to include in a new training session covering:

- What are the main areas covered by the Computer Misuse Act?
- Why would someone hack into a logistics companies' computer systems?
- What is phishing?
- What is ransomware?
- What measures can the company's digital team take to keep the computer system secure?
- What measures can all employees take to ensure that they keep the company's computer system safe?
