Brief: The East Midlands HEaTED Regional Network provides a forum for discussion and communication between Technical Managers, Technical staff, and Staff Development/HR colleagues from across the Region. The Network promotes training events, the sharing of knowledge, skills and best practice amongst Technical staff and increased awareness of the opportunities and facilities provided by HEaTED and member institutions. At this time of significant change in the HE environment maintaining a focus on high quality provision of services and taking staff forward through these changes becomes increasingly important.
